OpenType™
features

Activated feature

The word "Selection" is in red on a yellow background, followed by a green arrow pointing right, and the word "Effect" is in green on a teal background.

Glyph composition/decomposition (CCMP)*

A black letter 'j' is followed by a green plus sign and a red ligature consisting of a vertical bar and a horizontal stroke, followed by a green greater than sign and another black letter 'j'.

Localized forms (LOCL)*

The word "tantos" is shown in red on a yellow background, followed by a green arrow, and then in black on a green background.

Ordinals (ORDN)

A red number '2a' is followed by a green greater than sign and a green number '2a' where the '2' has a small superscript 'a'.

Case-sensitive forms (CASE)

The word "HUAIR S.23" is shown in red on a yellow background, followed by a green arrow, and then in black on a green background.

Superscript (SUPS)

A red number 'H123' is followed by a green greater than sign and a green number 'H123' where the 'H' has a superscript '1'.

Mark positioning (MARK)*

A black letter 'p' is followed by a green plus sign and a red ligature consisting of a vertical bar and a horizontal stroke, followed by a green greater than sign and another black letter 'p' with a mark above it.

Subscript (SUBS)

A red number 'H123aeo' is followed by a green greater than sign and a green number 'H123aeo' where the 'H' has a subscript '1'.

Mark to mark positioning (MKMK)*

A black letter 'O' is followed by a green plus sign and a red ligature consisting of a vertical bar and a horizontal stroke, followed by a green greater than sign and another black letter 'O' with a mark above it.

Fractions (FRAC)

A red fraction '138/675' is followed by a green greater than sign and a green fraction '138/675'.
